Professional Summary

Computer Science undergraduate with a strong foundation in Full-Stack Web Development and Data Analytics. Skilled in developing responsive web applications and transforming raw datasets into meaningful business insights using Power BI, SQL, Excel, and Python. Passionate about problem-solving, data-driven decision-making, and building scalable software solutions. Seeking an entry-level Software Developer, Data Analyst, or Technology Graduate role where I can contribute while continuously learning.

Technical Skills

- **Programming Languages:** Python, JavaScript, SQL, C++, HTML5, CSS3
- **Data Analytics:** Power BI, Microsoft Excel, Power Query, DAX, Data Cleaning, Data Visualization, Data Modeling, Exploratory Data Analysis (EDA)
- **Web Development:** React.js, Node.js, Express.js, REST APIs, Responsive Web Design
- **Databases:** MySQL
- **Tools & Platforms:** Git, GitHub, VS Code, Power BI

Projects

Sales Performance Analysis Dashboard

Power BI

- Cleaned and transformed raw sales data using Power Query.
- Created interactive dashboards with KPIs, slicers, and drill-through functionality.
- Developed DAX measures for business metrics including Sales, Profit, Orders, and Customer Performance.
- Designed multiple dashboards to help identify sales trends, regional performance, and customer behavior.

Tools: Power BI, DAX, Power Query, Excel

Mobile Sales Analysis Dashboard

Power BI

- Built an end-to-end sales analytics dashboard from raw transactional data.
- Performed data transformation, modeling, and KPI creation.
- Developed interactive reports to analyze product performance, sales trends, customer behavior, and regional insights.

Tools: Power BI, DAX, Excel

Blinkit Sales Analysis Dashboard

Power BI

- Designed an interactive business intelligence dashboard for retail sales analysis.
- Performed data cleaning and modeling.
- Built dynamic visualizations for sales performance, customer insights, product analysis, and outlet performance.

Tools: Power BI, DAX, Power Query, Excel

Expense Tracker Web Application

Full-Stack

- Developed a full-stack expense management application with secure authentication.
- Implemented CRUD operations for income and expenses.
- Created responsive dashboards for financial tracking.
- Integrated backend APIs with a modern frontend.

Tech Stack: React.js, Node.js, Express.js, MySQL

Education

Bachelor of Technology (B.Tech), Computer Science & Engineering

2024 – 2028

JECRC University, Jaipur

Certifications

- Google Data Analytics Professional Certificate - Coursera
- Microsoft Power BI Data Analyst Professional Certificate - Coursera
- Meta FullStack Developer - Coursera
- SQL Basics - HackerRank
- Python - GeeksforGeeks
- Deloitte Data Analytics Job Simulation - Forage

Achievements

- Developed multiple interactive Power BI dashboards using real-world datasets.
- Built full-stack web applications using the MERN ecosystem.
- Consistently improving technical skills through hands-on projects and certifications.

Soft Skills

Problem Solving • Analytical Thinking • Communication • Team Collaboration • Adaptability
